¹ Job placement information is obtained from graduate surveys, and despite reasonable efforts taken to gather employment data for graduates, many graduates do not respond to the survey. Therefore, the published job placement rate may not be representative of actual performance of University graduates of this program. The overall survey response rate of CA graduates across all University of Phoenix programs in 2021 was 24% and was 13% in 2022.

The following are the definitions for the Performance Fact Sheet:

" " means the number of students who began a program who were scheduled to complete the program within 100% of the published program length within the reporting calendar year and excludes all students who cancelled during the cancellation period.

" " is the number of students who began the program minus the number of students who have died, been incarcerated, or been called to active military duty.

" " is the number of students who completed the program within 100% of the published program length within the reporting calendar year.

" " is the number of on-time graduates divided by the number of students available for graduation.

" " is th $\frac{3}{4}$
